UNIVERSITY OF SINDH

JAMSHORO, SINDH—PAKISTAN

FACULTY OF EDUCATION, HYDERABAD.

B. Ed (Elementary 4 Year)

Course.EFMP-301	Semester-I	Credit Hours 03
Title of the Course	**Educational Psychology**	

Course Description

Educational Psychology is the scientific study of human learning, development, and behavior in educational settings. This course examines psychological principles and theories that explain how students learn, grow, and differ as individuals. It focuses on cognitive, emotional, social, and motivational processes involved in learning, as well as classroom management, assessment, and instructional strategies. The course prepares future educators to apply psychological knowledge to improve teaching effectiveness and student learning.

Learning Outcomes

By the end of this course, students will be able to:

1. Understand major theories of learning and development relevant to education.
2. Explain individual differences among learners and their implications for teaching.
3. Apply psychological principles to classroom instruction and management.
4. Analyze motivation, intelligence, and creativity in learning contexts.
5. Use assessment techniques to support student learning.
6. Promote inclusive, ethical, and supportive learning environments.

Week 1
Chapter 1: Introduction to Educational Psychology

- Nature, scope, and importance
- Relationship between psychology and education

Week 2
Chapter 1 (continued)

- Role of educational psychology in teaching and learning
- Discussion & short assessment

Week 3

- Inclusive education

Week 13
Chapter 8: Classroom Management

- Principles of classroom management
- Creating positive learning environments
- Managing discipline and behavior

Week 14
Chapter 9: Assessment and Evaluation

- Types and purposes of assessment
- Psychological tests and measurement
- Formative and summative evaluation

Week 15
Chapter 10: Teaching-Learning Process

- Teaching methods and strategies
- Instructional design
- Teacher effectiveness

Week 16
Chapters 11 & 12 (Combined + Course Review)

- Mental health and well-being in schools
- Guidance and counseling
- Application of educational psychology
- Technology and learning
- Professional ethics
- Final revision / assessment

Teaching/ Instruction Strategies

1. Lectures
2. Interactive Discussions
3. Question-Answer Session
4. Demonstration
5. Case Study Analysis

Practical Work

1. Hands-on Computer Exercises
2. Individual Assignments
3. Group Assignments
4. Internet-Research tasks
5. Presentations
