at compileToJSX

Unit 1 (especially the four-step problem-solving strategy and the reasonableness check), plus comfortable everyday arithmetic.

In this unit

1. [Topic 2.1 - The number system: whole numbers, integers, fractions and decimals](#) - the number family tree and computing across it.
2. [Topic 2.2 - Ratios, proportions and percentages](#) - proportional reasoning and the four percentage situations.
3. [Topic 2.3 - Powers, roots and daily-life applications](#) - squares as areas, and choosing the operation.

How to use this unit

Work through the topics in order; each assumes the previous. Do every worked example with a pencil before reading its conclusion, and keep your Unit 1 practicum notes at hand: the reasonableness habit from Unit 1 is used in every topic here. Glossary terms are underlined; hover or tap them for the Urdu definition.
